About SITAMS

The **Sreenivasa Institute of Technology and Management Studies (SITAMS)** was established in 1998 by Late Dr.D.K.Audikesavulu, Former Chairman of Tirumala Tirupati Devasthanams and Ex. MP, Lok Sabha, a Mechanical Engineer by profession and also a prominent industrialist possessing industrial establishments in the states of Karnataka, Tamil Nadu, Andhra Pradesh and Madhya Pradesh.

The institution is an Autonomous Institution, achieved 'A' Grade by Andhra Pradesh Higher Education Institution. Besides, the institution got NBA for the branch ECE, CSE Renewd for 3 years from 2022-2025. The college is offering 8 Undergraduate and 6 Postgraduate courses in Engineering and Management Studies. Here the students are offered a paralleled state of infrastructure to create a highly conducive environment. We are in high spirits and our mirth knows no boundaries to announce that SITAMS, a pioneer of value based education is awarded Accreditation during 2008 to till date by National Board of Accreditation, AICTE, and New Delhi and got Autonomous during 2013-2014.

About Department

The Department of Electronics and Communication Engineering is one of the largest departments of the SITAMS, CHITTOOR. The ECE Department at SITAMS has been a great reputation of excellence in teaching, research and service. With excellent laboratory facilities and dedicated faculty, the department of ECE offers broad range of programs that include undergraduate (B.Tech) and post graduate (M.Tech) in VLSI System design.

The department is periodically reviewed and all have received continuous and ongoing accreditation from the National Board of Accreditation. The UG course was accredited by NBA in 2008 for 3 years, in 2013 for 2 years and in 2019 for 3 years . In 2022, the department was again NBA Accrediated(Tier-1) up to 2025 for a duration of Three years.

About the FDP

This Faculty Development Programme (FDP) is conducted to enhance the knowledge of faculty in engineering colleges which is very much essential for today's fast growing technological world. Digital Image processing has become a unavoidable technology in many different sectors and Industries. Research associated activities has a improvements in image processing.

Objectives

The main goal of this FDP is to give a basic understanding of the theory and practice of digital image processing advanced techniques and help the faculty to know the research areas.

Resource Persons

The resource persons for this programme are from various reputed institutions and from leading industries.
