18MBA126 RESEARCH METHODOLOGY

Course Educational Objectives (CEO):

CEO 1: Understand the concept / fundamentals of research and their types.

CEO 2: Understand the practical application of various research techniques.

CEO 3: Understand the importance of scaling & measurement techniques and sampling techniques CEO 4: **Understand the importance** of sources of primary and secondary data, coding, editing, tabulation and analysis in doing research.

CEO 5: **Understanding and applying** the concept of report writing and guidelines for preparing a good research report.

UNIT- I: Introduction Business Research: Definition-Types of Business Research, Scientific Investigation: The Language of Research: Information needs of business-technologies used in business research: the internet, e-mail, Browsers and Websites. Role of business research in managerial decisions, Ethics in Business Research.

UNIT- II: The Research Process: Problem Identification: Broad problem area- preliminary data gathering. Literature survey, the research design: Measurement of Variables and Scaling techniques **UNIT- III: Sampling Design and Procedures**: Process of sampling design – Classification of sampling techniques- Probability sampling techniques and Non- probability sampling techniques-Statistical approach to determining sample size.

UNIT- IV: Collection and Analysis of Data: Sources of Data, Data collections, Observational surveys, guidelines for construction of questionnaires.

UNIT –V: The Research Report: Research Reports-Components- The title page- Table of contents-Executive summary- The introductory section- the body of the report- the final part of the reportacknowledgements- references- appendix- guidelines for preparing a good research report oral presentation- deciding on the content- visual aids- the presenter- the presentation and handling questions.

	QUESTION BANK Research methodology (18	3MBA126)
7	Give the examples of primary data and secondary	PO6,PO7, PO8
8	List the demerits of secondary data	PO6,PO7, PO8
9	Compare primary data with secondary data	PO6,PO7, PO8
10	Conclude the merits of primary and secondary data	PO6,PO7, PO8
11	What is participant observation?	PO6,PO7, PO8
12	what is controlled observation?	PO6,PO7, PO8
13	what is controlled observation?	PO6,PO7, PO8
14	Write a note on interview method?	PO6,PO7, PO8
15	What is personal interview?	PO6,PO7, PO8
16	What is telephone interview?	PO6,PO7, PO8
17	Explain about dichotomous questions.	PO6,PO7, PO8
18	Write a note on electronic questionnaire design?	PO6,PO7, PO8
19	Explain about dichotomous questions.	PO6,PO7, PO8
20	Differentiate between questionnaire and schedule method	PO6,PO7, PO8
	PART-B (Ten Marks Questions)	T
1	Define data? What are types of data used in business research	PO6,PO7, PO8
2	What are the guidelines used for constructing questionnaires	PO6,PO7, PO8
3	Elaborate primary data and secondary data with examples	PO6,PO7, PO8
4	How do you write research question for data collection	PO6,PO7, PO8
5	What is survey when it would be a appropriate method for data collection	PO6,PO7, PO8
6	Explain various types of interview methods	PO6,PO7, PO8
7	Elaborate importance of data in business research	PO6,PO7, PO8
8	How does questionnaire help in collecting data	PO6,PO7, PO8
9	Differentiate questionnaire and schedule method of data collection	PO6,PO7, PO8
10	What ate the limitations for researcher while collecting the data by using different methods	PO6,PO7, PO8
